KEYNOTE SPEAKER

Albert Nerenberg is an award-winning filmmaker, journalist, and Laughologist for *CBC radio*. His feature documentary *Laughology* recently played to sell out crowds at the Hot Docs and Just for Laughs Festivals. *Laughology* was called “screamingly funny” (the *National Post*) and the most comprehensive filmed study of laughing ever. Nerenberg is one of the world’s top experts on laughter.

But what makes him different from many specialists on comical subjects is Nerenberg makes people laugh, a lot. In fact, he developed an entire technique for doing it, known as Laughercize. Laughercize uses a series of natural triggers for laughter where people often end up rolling in the aisles literally. *The Globe and Mail* called him “wonderfully funny.” Laughercize is now taught by instructors around Canada for general wellness. Nerenberg has travelled the world studying unusual laughter phenomena – including the Tanzanian Laughter Epidemic, Laughter Yoga, and Holy Laughter. Generally, he is an expert on “positive contagions” – smiling, laughter, elevation, and frisson. He believes that in a world with a lot of stress and angst, that positivity can be spread just as easily as negativity. He is currently working on a documentary about the science of smiling.
